

Employer Branding

at TU Wien 2026/27

**Looking for
the top Gen Z
talents of
tomorrow?**

Strengthen your employer brand.

Directly at TU Wien.

With your target group.

Already during their studies.

Dear employers!

As the Career Center of TU Wien, we are the first point of contact for around 26,000 students in all matters relating to careers and professions. To this end, we design and organize innovative career courses, career events, job portals and media with target group-relevant content. For you as a company or organization, we are the right contact when it comes to recruiting new employees, talents or young professionals.

With our tech.branding portfolio, we increase both the efficiency and effectiveness of your employer branding activities - professionally, in high quality and directly on the TU Wien campus. In line with an integrated and holistic approach, our employer branding campaigns are designed in the form of targeted events, high-impact content and target group relevance.

Our experts have extensive experience in HR consulting, recruiting & coaching as well as communication and marketing. We are happy to advise you without obligation on the possibilities of putting together and implementing cross-campaigns suitable for your company.

You can also take advantage of the opportunity to design annual campaigns to establish your employer brand at TU Wien on a long-term and sustainable basis. Benefit from short processes, direct and flexible communication.

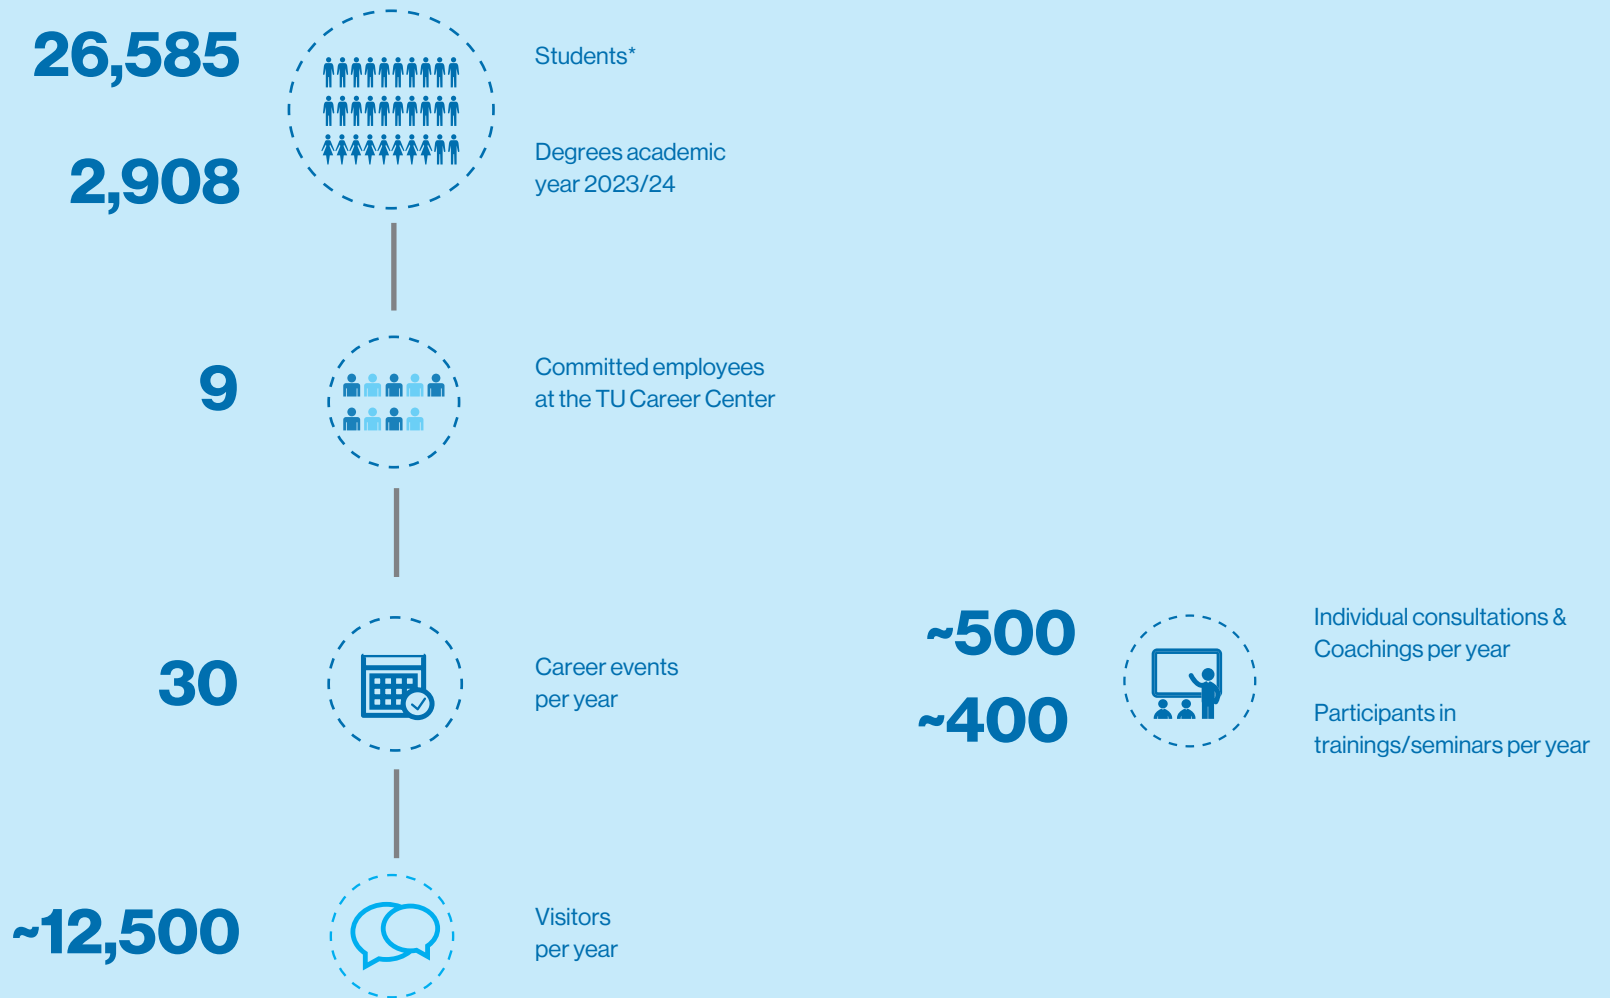

Would you like to talk about annual cooperation?

Please feel free to contact me:
julia.hainitz@tucareer.com

Julia Hainitz, MA
Managing Director
TU Career Center GmbH

*Intellectual capital report 2024, reporting date 15.1.2025

For students

We support students from the beginning of their studies to their successful entry into professional life.

We encourage them in their individual personal development, sensitize them to the importance of dealing with the topic at an early stage and create space for self-reflection.

We motivate students to recognize their potential, develop their career goals independently and pursue them with self-confidence.

We advise them on their individual career planning, point out opportunities and prepare them for the job market in the best possible way.

Along the way, we offer them numerous platforms as an independent interface to establish future-oriented networks with practitioners and promote interdisciplinary exchange with fellow students.

We create awareness of trends relevant to careers and the labor market and also see our mission as bringing socially important topics into focus.

We develop our innovative formats with our finger on the pulse of the times, set ourselves high quality standards and are experts in our field.

Our expertise is state of the art. We are constantly developing it further.

As an independent interface between the job market and the university, we are committed to our values and act exclusively in the interests of the students.

For employers

For companies and organizations, we increase both the efficiency and effectiveness of their recruiting processes, directly on the TU Wien campus. For these employers, we are the first and central point of contact when they want to recruit qualified employees for their company.

Our HR experts have experience in personnel consulting services, know the processes and are certified in various potential analysis procedures.

Close cooperation with companies is an important prerequisite for being able to offer insights into different professional fields. This forms the foundation of a trusting collaboration. Our clients rely on us to develop solutions for their daily challenges in employer branding and thus noticeably reduce their workload.

In terms of integrated communication, our comprehensive employer branding campaigns are designed in the form of targeted campaigns and publications (content creation) and according to dialog groups.

Julia Hainitz, MA
T: +43 664 60588 78 18
E: julia.hainitz@tucareer.com

Set your employer brand with us in a sustainable and authentic way.

TU Career content.branding is an effective method of using storytelling to spread your brand across various channels and make it customizable at the same time.

With narratives, success stories or best practice examples, you can convey your messages emotionally and arouse attention and interest. By distributing the content via various media such as print, social networks, blog posts, video or reels, you can reach our students with pinpoint accuracy and build a strong bond.

Use the power of content.branding to successfully establish your employer brand and inspire your target group.

What do our students appreciate about our content and media?

- Appreciation, authenticity and exclusivity
- Quality time (haptics) while reading
- Reels, videos and blog online
- Topicality and trends
- Exciting people and stories
- Interesting insights into the company
- Identification with the university

Who is our target group?

- Around 26,000 TU students from all disciplines
- approx. 3,000 graduates of the TU Vienna annually
- Participants in the talent.programm and talent.praktikum of the TU Wien
- Participants of the workshop days "karriere.zeit"
- Visitors to the job fairs TU.day & TU.morrow

How are students at TU Wien?

- TU students aged 18-25 (Late Millennials, Gen Z)
- Digital natives with a special interest in Technology and natural sciences
- Meaning & fulfillment in the job are important
- Work-life balance is important (free time & time for family and friends)
- Prefer companies that operate according to ethical and sustainable principles act

All year round

Leonhard Steiger

T: +43 664 60588 78 39

E: leonhard.steiger@tucareer.com

Digital Formats

online.advertising

The career platform **tucareer.com** offers all TU students and graduates important information and tips on applications, career events and current job offers.

Be at the heart of the action with your topics and your brand and address the dialog group in a targeted manner. We design your content so that it fits perfectly into our content.branding.

Your advantages

- Current content communication
- Cross-media possibilities/integration
- Fast and flexible processing
- Cost-adequate forms of advertising

The student magazine of TU Wien (print & online)

mein.job & blog

We connect, increase visibility, and create impact—for strong employer brands. **The mein.job magazine (circulation: 6,000) and the mein.job online blog** are our knowledge platforms for careers, future skills, insights, and the TU Wien community.

While the print magazine ensures visibility and trust within the TU community twice a year, the mein.job blog extends your content digitally, with reach, relevance, and sustainability.

This creates an authentic connection between experience (print) and reach (online), which showcases your employer brand in a targeted manner.

Your advantages

- Targeted reach within the TU Wien community
- Long-term visibility through online extension
- Credible presence in the editorial environment
- Storytelling instead of advertising: people, topics, and perspectives
- Combined print + online packages for maximum impact

Die Zukunft fährt Bahn
Wer entscheidet, wenn KI mitfährt?

HITACHI RAIL | REDAKTION MEIN JOB

Künstliche Intelligenz, Digitalisierung und Nachhaltigkeit verändern die Bahn derzeit spürbar: Neue digitale Leit- und Sicherungssysteme, Automatisierung und datenbasierte Entscheidungssysteme modernisieren eine Branche, die gleichzeitig extrem langfristig und sicherheitskritisch ist. Was heißt das für euch als Studierende der TU Wien und für eure technischen Zukunftsjobs?

Hannes Boyer, Vice President North, Central & Eastern Europe, Hitachi Rail spricht über Vision, Verantwortung und die Frage, wie Mobilität in Europa nachhaltig gestaltet werden kann.

Peter Tummelshammer, Head of Innovation bei Hitachi Rail in Österreich zeigt, wie Technologien wie AI, Datenanalyse und Cybersecurity heute schon im Bahnbetrieb eingesetzt werden und warum der Mensch dabei immer Teil des Systems bleibt.

Zwei Perspektiven. Eine Botschaft: Zukunft entsteht nicht durch Hype, sondern durch fundierte Entscheidungen, Technikkompetenz und Verantwortung.

Verantwortung und Leadership
Wie wird man Future Leader und was treibt Sie an?

BOYER: Wer eine berufliche Karriere anstrebt, braucht zwei Dinge: eine gute Ausbildung und die Bereitschaft Verantwortung zu übernehmen. Ich selbst habe eine solide technische Ausbildung, die ich später mit einem Wirtschaftsstudium ergänzt habe. Entwicklung über ich an der Basis gestartet – in der technischen Konzernumgebung, verschiedene Stationen in großen globalen Unternehmen, Verantwortung gemisch Schritt für Schritt weiterentwickeln. Ein Grund war sicher, dass ich mich nie vor schwierigen Aufgaben und Verantwortung scheute habe. Was treibt mich heute noch an? Es ist die Kombination aus Technik, internationaler Zusammenarbeit und der Chance, Mobilität in Europa aktiv mitzugestalten.

Was aus ihrem TU-Studium zählt wirklich und was lernt man erst im Job?

TUMMELSHAMMER: Ich glaube, der wichtigste Aspekt aus meinem Studium ist analytisches Denken und Arbeiten, das heißt die Fähigkeit ein Problem einzugrenzen und darzustellen. Ein weiterer

Cross-content employer branding campaign

CAMPUS ADVERTISING

Maximum visibility directly on the TU campus: distribution at all info points, career events, and in TU Career Center courses.

- Direct on-campus distribution
- Available at all key touch-points on campus
- Used as a working material in all TU Career Center programs and courses
- Direct distribution at both job fairs (TU.day and TU.morrow, each with around 6,000 visitors)

Widespread circulation through dean's offices, student unions, student associations, and cooperation partners.

SOCIAL MEDIA AND NEWSLETTER

Extensive promotion at each publication date in March and November via our social media channels.

Cross-posting on LinkedIn and Instagram, as well as links in the mein.job blog, ensure high visibility and brand engagement.

Email newsletter to all TU Wien students (approx. 26,000) in the summer and winter semester.

TU CAREER.COM

The mein.job blog is the digital extension of the mein.job print magazine, featuring stories, interviews, and insights on careers, professional orientation, and the TU community.

The blog offers companies a lasting presence in an editorial environment: Content remains visible over the long term, is extended through social media, and strengthens your employer brand at TU Wien.

The print magazine is also available year-round as an online publication on the website and as a downloadable PDF.

Once a year

Julia Hainitz, MA

Career Profiles Guide

job.im.blick

We present your career profiles

Companies from industry, research, and business showcase technical and scientific professions – digital and forward-thinking. This gives TU Wien students clear insights into their career opportunities.

The print catalogue is breaking new ground

With our new digital platform, you can present your career profiles sustainably and always up to date.

More than a page in the catalogue – a cross-media campaign

Put your company in the spotlight with social media boosts, interactive billboards, and authentic content that inspires young talent. This way, you offer future professionals an inspiring look into their career paths while strengthening your employer brand.

Practice in focus

Give future employees authentic insights into your company.

On a customizable page, you have the opportunity to present your career profile by answering guiding questions and adding your company logo, images, and a description.

Highlight the key tasks, goals, competencies, and interfaces of the professional day-to-day life to provide a realistic and inspiring impression.

PAKETE	Basic Package	Online Boost	Spot-light	Premium Combo

Expert Workshops

karriere.zeit

Technical topics take center stage when TU students explore potential employers, career paths, and job opportunities!

The karriere.zeit offers you the ideal platform for in-depth professional and personal exchange with interested students, graduates, and potential applicants from your relevant fields through interactive workshops at TU Wien.

Design a workshop tailored specifically to your company and inspire the next generation of talent! After the live workshop, there will be space and time on site to continue engaging with students in a relaxed atmosphere.

Your benefits

- Professional exchange with your target audience
- Casual networking with TU students over coffee and cake right after your workshop
- Logo presence across the entire campus
- Visibility of your employer brand at TU Wien
- On-site job wall – connect karriere.zeit with your open job opportunities for TU students.

Foto: Philipp Lipiarski

Design your **1.5-hour in-person workshop** at TU Wien

TU students prefer **interactive formats** such as case studies or insights into projects.

Define a topic that is **exciting and relevant** for the students.

Students want genuine insights **from your technical experts**.

To **ensure commitment**, students register for the individual workshops.

Talent pool: After the event, you will receive (with consent) the contact details of the students who participated in your workshop.

Company presentations and technical workshops play an important role. 20.34% of the surveyed students find it helpful to get to know companies through presentations with a technical focus in their free time.
(TU.know Survey 2025)

Cross-content employer branding campaign

The job fairs of TU Wien

TU.day (May)

Around 100 employers from technology and the natural sciences, over 6.000 visitors, and 600 jobs on the job wall – that's TU.day in May, right on the TU Wien campus.

TU.morrow (November)

With TU.morrow, the TU Career Center expands its career offering in the winter semester — as a complement to TU.day and as the only career fair in the winter semester at TU Wien.

51% of respondents deliberately use career fairs to connect with potential employers, according to our survey
(TU.know Survey 2025)

	TU.day (May)	TU.morrow (November)
<p>Fair appearance</p> <p>Mandatory for participation in TU.day / TU.morrow at the TU Wien Freihaus campus</p> <p>The participation fee includes:</p> <ul style="list-style-type: none"> • Overall organization • Listing in the exhibitor directory on tucareer.com • Company profile on tucareer.com for 6 months • Catering for max. 3 company representatives • 1 parking ticket (day rate) <p>incl. free option to post online job ads on tucareer.com with a duration of 60 days</p>	<p>1,890.00 EUR</p> <p>max. 10 ads from April until end of May</p>	<p>1,590.00 EUR</p> <p>max. 2 ads from October until end of November</p>
<p>Booth space</p> <p>incl. standard carpet (color: grey), power connection, Wi-Fi, 1 standing table, and 2 bar stools</p>		
<p>Region (booth space min. 6 m²)</p>	1,990.00 EUR	1,510.00 EUR
<p>each additional m²</p> <p>■ 7 m² ■ 9 m² ■ 12 m² ■ 18 m² ■ 24 m²</p>	+ 229.00 EUR	+ 229.00 EUR
<p>Premium region</p> <p>Includes the red and yellow areas on the ground floor and 1st floor of the Freihaus</p>	+ 390.00 EUR	+ 390.00 EUR

Career profile Insights Add-on

NEW

Make your job positions more accessible to students

Showcase your career profile and reach students right where decisions are made.

Your benefits

- Provide insights into real-world tasks and roles
- Help students find their way
- Raise your profile as an employer and make your organization more accessible

Describe your job profile

Invite young talents to join the conversation

Share first-hand insights

Career profile Talk at the Job Fair

In a brief moderated interview, you will provide insights into a specific job at your company, followed by a Q&A session with students.

Facts

- 15-minute career profile talk
- + Q&A with students
- Hosted by the TU Career Center
- Included in the job fair program

Students want to understand

- What the job is really like
- What skills are required
- Whether the company is a good fit

Exclusive: Only 4 companies per trade show

Participation requires that a job profile be listed in the TU Career Center's job profile catalog and that the company participate in the career fair.

450.00 EUR

Exclusive social media reel highlighting your participation in the job fair

Your company in the spotlight!

With our exclusive Instagram reel, we showcase your company as an attractive employer – authentic, modern, and attention-grabbing.

What to expect:

- Professionally produced reel (approx. 20 - 30 seconds) – perfectly aligned with your employer brand
- Individual storyline focusing on your company or fair presence
- Publication on the official TU Career Center Instagram channel with direct tagging of your company
- **Exclusivity:** Only one company per fair receives this special social media feature
- **Increased visibility:** Even before the fair, you spark interest among potential applicants and position yourself as a top employer.

1,190.00 EUR

Exclusive matching and networking – meet top talents directly

Targeted. Efficient. Personal.

Increase the quality of your conversations at the job fair with our new matching service from the TU Career Center. During the fair, we connect you directly with the students who match your desired profiles.

How it works:

- Students apply in advance to the TU Career Center with their CV and transcript.
- Your company lets us know which fields of study you are looking for.
- The TU Career Center handles the pre-selection and identifies suitable candidates.
- You will meet five carefully selected students directly at the fair in short, focused one-on-one interviews (approx. 10 minutes each).

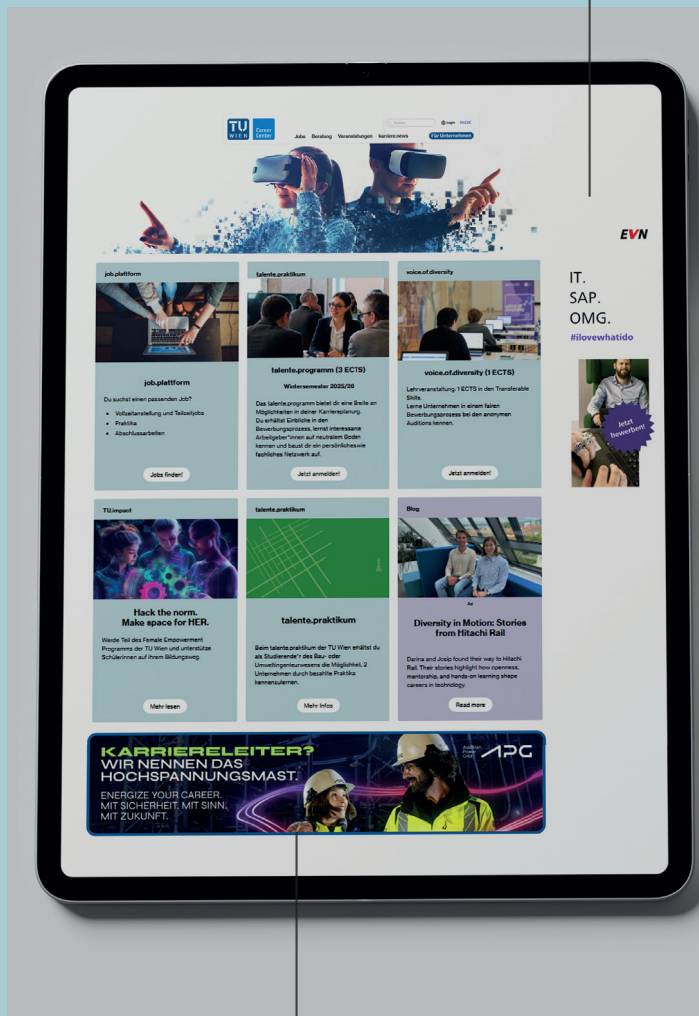

Your benefits:

- Higher quality and efficiency of your fair conversations
- Meet suitable candidates without any scatter loss
- Save time through targeted pre-selection by the TU Career Center
- **Exclusivity:** only three companies per fair

1,900.00 EUR

Online advertising on tucareer.com as part of the job fairs

Skyscraper

Billboard

Position your employer brand as part of the job fairs with a compelling advertising message on our homepage **tucareer.com**.

Skyscraper Home page and all subpages

- Placement: Home page and all subpages, rotating
- 300 x 900 pixels png, jpg, gif (max. 10 MB)
- Link to a landing page of your choice

550.00 EUR, duration 2 weeks

Billboard Home page

- Placement: Home page, rotating
- 1980 x 600 pixels png, jpg, gif (max. 10 MB)
- Link to a landing page of your choice

450.00 EUR, duration 2 weeks

Job fairs are traffic magnets:

During the fair periods, our homepage traffic nearly doubles. That's exactly when students are actively searching for employers — putting your ad right in their line of sight.

Recruiting Format

talente.programm

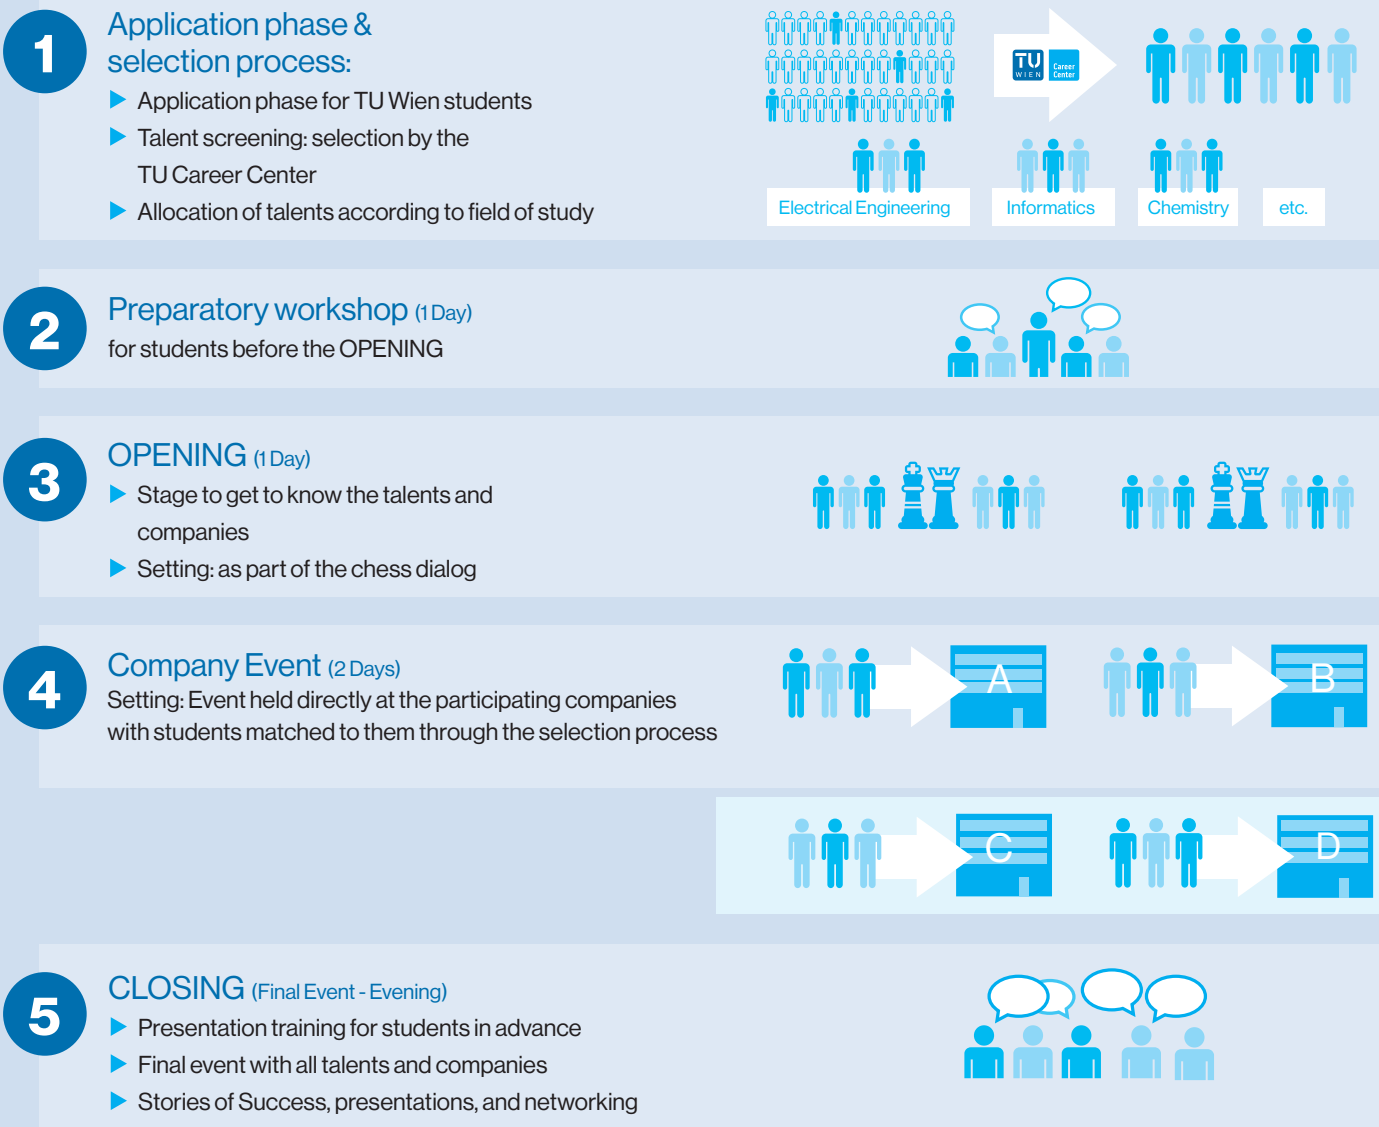

The talente.programm of TU Wien is a course in the field of Transferable Skills/Soft Skills worth 3 ECTS. It is organized under the Vice Rector for Academic Affairs, Mag.iur. Dr.iur. Jasmin GRÜNDLING-RIENER.

The goal is to train students in the application process and connect them with companies that match their profiles already during their studies. The course is designed for Bachelor's, Master's, and PhD students and is offered once a year (in the winter semester). Through the talente.programm, we offer companies the opportunity to make their organization tangible and accessible to students.

Your benefits

- Top talents matched to your field of study (except Architecture and Civil & Environmental Engineering)
- Professional and high-quality preselection
- Access to the talent pool, including CVs
- Present your company values and inspire enthusiasm
- Target group-specific platform for your employer branding
- Long-term impact through sustainable networking
- 100% attendance of participating students

The process

01 Application and registration phase

Around 26,000 TU Wien students are made aware of the current talente.programm through all communication channels. The preselection of students is carried out according to their field of study and based on pre-defined, company-specific criteria. The registration process is designed to resemble an actual job application and offers training in a neutral setting, including a video application.

04 Company events

After the Opening, students choose one of the two companies they were introduced to and get to know it better during two Company Days.

Over the course of these two days, students have the opportunity to deepen their impression of the company on-site and discuss potential career opportunities.

02 Workshop and preparation

In a full-day workshop, 50 to 70 students prepare for the participating companies and are introduced to the concept and structure of the program. The agenda also includes an application training and a presentation training.

05 CLOSING Final event

During the CLOSING, all participating companies and students come together once again to share their experiences from the talente.programm and reconnect with one another.

03 OPENING Personal meet & greet

During a full-day kick-off event, the so-called OPENING, students meet with two companies each and get to know one another in person for the first time — as part of a specially developed format called the Chess Dialogue.

The Chess Dialogue is designed as a reciprocal exchange with a clear focus on personal competencies. Speaking and response time are equally divided between students and companies.

Thanks to the clear structure of the Chess Dialogue, which is based on competencies, both parties benefit from a meaningful and high-quality conversation.

Cross-channel employer branding campaign

MAGAZINE & BLOG

Your participation is accompanied by an integrated communication campaign.

A guest article in the mein.job magazine, including your company logo, presents you within the editorial environment of TU Wien. Your content is further extended digitally through the mein.job blog.

- Guest article in the print magazine
- Online publication on the mein.job blog
- Promotion via social media
- Distribution at campus locations, workshops, and events
- Working material used in the course

TU CAREER.COM

Your company becomes visible on tucareer.com – where students and graduates discover employers.

- Placement in the talente.programm section, including a link to your company profile
- Promotional banner and skyscraper ad featuring your logo
- Follow-up articles including company mention

SOCIAL MEDIA AND NEWSLETTER

Your content is shared through the TU Career Center's social media channels and newsletter – reaching the TU community directly.

Services:

- Mention on LinkedIn, Instagram & YouTube
- Creation of reels & stories
- Newsletter sent to approx. 26,000 students & alumni
- Link to your article on the mein.job blog

CAMPUS ADVERTISING

Your brand is directly visible on the TU campus – right where students are every day.

- Promotion at fairs
- Presence on TU screens and Video walls including logo
- Flyer distribution & giveaways
- Outreach through student unions & dean's offices

The talente.praktikum will soon also launch for **(Industrial Engineering) Mechanical Engineering students** in cooperation with the Dean's Office of the Faculty of Mechanical and Industrial Engineering.

Feel free to get in touch now and secure your spot.

Recruiting Format

talente.praktikum

for Civil and Environmental Engineering students

The talente.praktikum for Civil and Environmental Engineering students is a spin-off of the talente.programm and is implemented in close cooperation with the Faculty of Civil and Environmental Engineering.

This internship program is where the future is being built – with purpose, sustainability, and great enthusiasm. Top talents from the fields of Civil and Environmental Engineering present themselves through an application process and experience the working world first-hand and in a practical, real-life setting directly within your company.

“With the talente.praktikum, we aim to showcase the wide range of career opportunities available to future civil and environmental engineers, provide career orientation, and help our students become familiar with the job market right from the start.” **Univ.-Prof. Dipl.-Ing. Dr.techn. Ronald Blab, Dean of the Faculty of Civil and Environmental Engineering**

“The internship in Sweden with Strabag was the highlight of my internships so far. It was a new experience to work for a company abroad over an extended period. My main tasks included documenting performance and construction progress. I was involved in the inspection of formwork and reinforcement. The team integrated me into many meetings, and I was able to take part in the discussions.” **Johanna Humer, internships at Strabag and FCP**

Recruiting Format

voice.of.diversity

With voice.of.diversity, we bring students and employers together through a scientifically grounded format. Using the DEBIAS Tool (Digitally Eliminating Bias in Application Selection), we have developed a way to reduce bias and discrimination in the recruiting process.

voice.of.diversity offers you a unique opportunity to connect with highly qualified TU Wien students in a new and engaging way during the “anonymous auditions”, gaining valuable insights and experiences for your own recruiting processes.

voice.of.diversity is an official course listed in TU Wien’s Transferable Skills catalog and is worth 1 ECTS.

“Young women are disadvantaged because of the perceived ‘risk’ of pregnancy.”
(TU.know Survey 2025)

Why should you be part of it?

The format offers you the opportunity to reach new target groups, reflect on your recruiting practices, and strengthen your employer branding strategy in a sustainable way.

- Learn to identify and minimize unconscious discrimination processes.
- Connect with highly qualified technicians you might otherwise overlook in conventional recruiting processes.
- Position yourself as an innovative employer who takes the topic of diversity seriously.
- Gain valuable experiences and insights to optimize your own recruiting processes.
- Reach students who may not have previously considered a career in your company.
- You will also receive the CVs of the participating students.

Requirements

- 1.** A corporate culture that already embraces diversity and actively promotes equal opportunities through genuine commitment.
- 2.** Openness and willingness to explore new approaches to recruiting while reflecting on existing practices and processes.
- 3.** Interest in recruiting from the selected (English-taught) degree programs at TU Wien: (Business) Informatics, Technical Mathematics, Technical Physics. Other programs available upon request.

Price

9,900.00 EUR

CAMPUS ADVERTISING

Your brand is directly visible on the TU campus – right where students are every day.

- Promotion at career fairs
- Presence on TU screens and Video Walls including your logo
- Flyer distribution & giveaways
- Outreach through student associations and dean's offices

The process

The meeting between students and companies takes place directly at TU Wien.

Step 1: 30-minute DEBIAS chat

Before students meet company representatives, much happens in advance: both parties are thoroughly prepared. Students receive company-specific questions beforehand that briefly address both professional and personal aspects – without including private details. The next step is the DEBIAS chat, where company representatives can respond to and follow up on the students' answers.

Step 2: 15-minute conversation

Immediately after the 30-minute written, anonymous chat (without sound or video), a 15-minute in-person live conversation takes place. The curtain falls for both sides — this is where self-reflection begins, and new insights may emerge.

Lukas Ramach (Managing Director BOC Group): „Diversity in all its facets was anchored in our corporate culture, long before it became a trending topic. We are convinced that this diversity helps us as a company to find better solutions for our customers. When we heard about the “voice.of.diversity” initiative from the TU Career Center, it was immediately clear that it was a perfect fit for us. The clear focus on giving people a chance who may not always have it so easy, and the whole thing with scientifically sound support, appealed to us greatly. The format helped us to focus even more consciously on where we are confronted with biases despite all our openness. In fact, you can't tell from the answers in the chat tool what kind of person is really standing in front of you. There is a discrepancy between the real appearance of the applicants and the image in our minds, and there are some surprises. The best result is that we have found employees from every round who are still with our company to this day.”

”

Sabine Leisentritt (HR Management at WIEN ENERGIE) summarizes her experiences of the day: “The event has made us aware of many things, and we would like to rethink our recruiting in the future in order to exclude possible biases as much as possible.”

Female Empowerment Program

TU.impact

Education and equal opportunities play a major role. 47.03% of students value companies that support programs promoting education and equal career opportunities. (TU.know Survey 2025)

The promotion of female empowerment, social skills, and intergenerational activities in companies is becoming increasingly important. By implementing measures in these areas, companies not only have a positive impact on society but also create an inclusive and diverse working environment.

As part of TU.impact, we offer your company a unique opportunity to actively contribute to shaping the future of STEM professions while strengthening your employer brand. On one hand, TU Wien students inspire schoolgirls to pursue STEM subjects; on the other, female role models from your company are put in the spotlight.

This program fosters intergenerational exchange between schoolgirls, TU Wien students, and female professionals from your company.

The Female Empowerment Program is an official course listed in TU Wien's Transferable Skills catalog and is worth 3 ECTS.

The participating TU students particularly value the following aspects of TU.impact:

- Empowerment & motivation
- Personal growth & reflection
- Inspiration & information
- Community & support
- Visibility of women in technology & exchange

The three pillars of the Female Empowerment Program

Social skills & engagement

Through hands-on workshops, we foster essential soft skills among TU Wien students and prepare them for the challenges of professional life.

These students become ambassadors for STEM careers, sharing their enthusiasm with schoolgirls in local educational institutions.

The study “Wie MINT gewinnt” by the MINTality Foundation and FH Hagenberg confirms once again: girls receive too little encouragement to pursue technology and explore new roles.*

As a participating company, you benefit from these committed, forward-thinking women who take on social responsibility early on and develop leadership skills.

You also position your company as one that promotes social engagement and actively supports young people in their educational and career choices.

Female Empowerment

Our program specifically focuses on promoting female talent in STEM fields, creating spaces for exchange, inspiration, and networking designed for young women.

By actively participating in our program, your company not only demonstrates a strong commitment to greater diversity in technical professions but also gains direct access to highly qualified female talent.

You strengthen your corporate culture through diversity and become part of a forward-thinking initiative that actively addresses the skills shortage in STEM professions while promoting gender parity in technical fields.

Role Model Cross Generational

The heart of our program is the intergenerational exchange between schoolgirls, university students, and experienced female professionals from your company.

Your female leaders become inspiring role models for the next generation, sharing valuable first-hand insights from their own careers.

This exchange not only builds meaningful networks for everyone involved but also gives your company the opportunity to gain fresh perspectives from young talents.

You position your female employees as industry role models and establish long-term relationships with potential future employees – from the first school contact to direct recruitment.

*www.mintality.at/mintality-fh-ooe-studie-2023/

Application & registration

- ▶ Application phase for female students of all study programs
approx. 30% of TU students
- ▶ Selection of participants by the TU Career Center

Workshops and school visits

- ▶ Soft-skills workshops for female students (conducted by the TU Career Center)
Communication training, emotional intelligence, intercultural competence, leadership skills, problem-solving and critical thinking, female empowerment, unconscious biases
- ▶ School visits: female students inspire schoolgirls to pursue STEM careers
- ▶ Q&A session with your female role model as part of a workshop for the students

Panel discussion – networks

- ▶ Panel discussion: Intergenerational exchange with TU female students and interested male students for an inspiring dialogue and mutual understanding (networking opportunity).
Setting: Talk / panel discussion organized by the TU Career Center

These events involve the participating companies:

You will receive direct access to the selected TU female students, including their CVs.

Guided tours within the company

- ▶ Practical insights into your daily work for schoolgirls and female students
- ▶ Intergenerational support for women and girls in science and technology

Cross-channel employer branding campaign

Why should you be part of it?

Those who want to shape the future need strong women in technology. This program combines visibility, recruiting, and social impact. Join this forward-thinking initiative now and secure your place in the program!

- Direct access to qualified female young talents including CVs
- Strengthening your employer brand as a diversity-conscious company
- Development of your female leaders
- Early talent acquisition
- Contribution to addressing the skills shortage in STEM fields
- Cross-company networking with other participating firms
- Social engagement with impact

“The Q&A sessions with the role models were truly inspiring and empowering. It was amazing to see how far these women have come. I will also always remember the school visit — especially the exchange and the genuine interest shown by the pupils.”
Participant, TU.impact 2025

“It was truly wonderful to meet the pupils and students in person! We were impressed by the openness, determination, and diverse talents of these women. TU.impact is an all-around successful cooperation – and we are very proud to be part of it as UNIQA Austria.” UNIQA Austria

recruiting.

We are also happy to support you in filling specialist and management positions. The individual and personal support provided by qualified consultants is particularly important to us.

Transparency, appreciation and commitment are our top priorities. We offer you professional handling of your search processes based on many years of experience.

Depending on the requirements profile, we conduct the search ourselves or with external advice.

We will be happy to provide you with more information.

potential. diagnostics

Our test procedures provide our customers with valuable insights when making personnel decisions in the context of selection or development and give them the opportunity for an objective assessment of their position with regard to subject-independent competencies. To minimize risk and ensure quality, we offer the option of creating detailed competency profiles as part of potential analyses. This is available for both existing and future employees.

Our testing procedures include a written evaluation. The detailed interpretation and a joint reflection on the personality profile take place in the context of an individual feedback session with certified consultants from the TU Career Center.

Compare the results with your expectations. What behavioral competencies does the job profile require?

This is how it works

potential. diagnostics

A potential analysis is based on the purpose of the evaluation and is therefore always customized. A meaningful profile of strengths, talents and development opportunities is created using an online questionnaire.

Diagnostic tests provide information about:

- personal strengths, preferences and areas for development
- behavioral patterns in certain situations
- personal communication style
- contribution to the team
- opportunities for personal development

JobMatch

„JobMatch“ is a psychometric test procedure that creates a precise profile of a person's work-related characteristics and working style.

It enables a detailed measurement of various competences in the following areas:

- task-related competences
- interpersonal competences
- self-related competences

potential diagnostics „JobMatch“

Including: implementation of the potential diagnostics, competency-based questionnaire incl. feedback session with candidates and feedback session with the specialist department.

CAPTain

„CAPTain“ is a psychometric test procedure that systematically records information on a person's behavioral style and analyzes and evaluates it on the basis of an evaluation algorithm based on occupational psychology.

For management positions, we recommend “CAPTain”, a diagnostic tool that provides insights into the working and performance styles of candidates.

Clear focus is on:

- Design of leadership
- Behavior in a team
- Dealing with tasks
- in a professional context

We get a look at objective, actual behavior and relate it to the socially desired result. All our consultants who offer you “CAPTain” projects are certified for this potential diagnostics.

potential diagnostics „CAPTain“

Includes: implementation of the potential analysis, license plus feedback session with the candidates, and meeting with the specialist department.

TU.know Survey:

Gen Z – Here to change everything?!**Your exclusive roadmap to successful employer branding at TU Wien**

Generation Z (1995-2010) is the first generation to grow up entirely in the digital age – confident, value-driven, and with clear ideas about work, purpose, and career. For companies, this means: those who understand Gen Z will win the talents of tomorrow.

Our survey provides answers to key questions:

- How does Gen Z define career and success?
- Which factors determine their job choice?
- Which benefits truly make a difference?
- What role do sustainability, culture, and work-life balance play?

Your benefits:

Practical recommendations for target group-specific employer branding

- Hands-on recruiting insights from the TU Wien community
- Learn how to reach students in different stages of life
- specifically address female talents
- design a job ad that appeals to Gen Z
- use the right keywords in employer branding
- create an application process that convinces and builds loyalty

What our students and customers say...

“In the pleasant ambience of the domed hall at TU Wien, I was able to talk to the leaders of the construction companies on an equal footing and also ask them critical questions as part of the chess dialogues. The internship was a great opportunity to get to know the companies and make contacts.”

“Thanks to the talent program, I learned how to prepare for an application process. I liked the fact that I was able to immediately apply the theory I was presented with in real job interviews with exciting, relevant companies. In particular, the look behind the scenes of recruiting was very interesting for me and something completely new. On a personal level, I have learned the mental attitude with which I go into a job interview. I still get a little nervous during job interviews, but I now see things from an angle that helps me stay cool.”

“For many years, we have been in active exchange and cooperation with the TU Career Center. Not only the perfect organization of the career events at the TU, but also the TU talent program has led to the Kapsch Group and its innovative products and solutions becoming more visible to students at the TU. We see the TU Career Center as a competent and solution-oriented point of contact for our target groups and are delighted with the successful partnership over so many years.”

“We use the TU Career Center as a platform to strengthen our employer brand and to recruit highly qualified talent. As the largest European and Austrian IT service provider, Atos is driving this cooperation because, as an innovative big player in the IT sector, we not only support the digitalization of our customers, but also research, develop and implement the IT solutions of the future. This gives us the opportunity to get in touch with creative students and graduates and offer them interesting prospects in the digital industry. Students are actively involved in customer projects during their studies. This allows individual strengths and preferences to be discovered and developed.”

“As a software employer, we are always on the lookout for young talent. TU Wien is one of our most important partners in this regard. Through a variety of measures and activities, both virtual and on-site, we are able to position ourselves as a potential employer among our target group at an early stage. The offers, which are tailored to our needs, enable us to engage with students directly. We look forward to continuing our excellent collaboration with TU Wien for many years to come.”

“For us, partnerships with educational institutions are an important way of getting in touch with the talents of the future at an early stage and highlighting the attractive career opportunities and meaningful jobs at Infineon. The TU Wien, with its technical and scientific degree programs, and in particular the Career Center, with its wide range of fairs, workshops and events, offer ideal opportunities for this. We look forward to continuing to meet motivated and qualified students and graduates through this partnership who want to work with Infineon to make life easier, safer and more environmentally friendly.”

“As an innovative, lateral-thinking and globally active online retailer and e-commerce service provider made in Austria, we – nice-shops GmbH – are always looking for people who want to live out their passion for IT professionally. We offer nice-jobs that adapt to the circumstances and needs of our colleagues and not the other way around. Instead of rigid budget and time constraints, we focus on personality and individual strengths. Our nicepeople work creatively and independently – in an attractive environment (free breakfast and lunch, massages, flexible working hours, and much more). We are enthusiastic about our collaboration with the TU Career Center – this is how we get to know highly qualified, future nicepeople.”

“Our long-standing collaboration with the TU Career Center offers us as a company the opportunity to present our diverse and meaningful job offers in a way that is both target group-oriented and needs-based. Thanks to the cooperation and its modern and innovative formats, we are able to get in touch with students at various touchpoints and spark their enthusiasm for ÖBB as an employer. As the country’s leading climate protection company, we not only benefit from this partnership today, but are also laying the foundation for a sustainable future together with the talented students at TU Wien.”

“TUday is characterized by the large number of outstanding engineering students. As Austria’s leading electricity company, we attach great importance to direct dialogue and exchange with students. The job fair offers the perfect opportunity for this. We can look back on numerous highly qualified applications and many contacts with excellent students. We are particularly pleased about our long-standing partnership with the TU Career Center in awarding the unique VERBUND Women’s Scholarship.”

“The Wiener Stadtwerke-Gruppe is one of Austria’s largest and most diverse companies. 15,000 employees keep Vienna running and make our city climate-fit for the future. For a sustainable climate turnaround, we need enthusiastic people who want to join us on this journey! With the TU Career Center, we have found an important and long-term partner, that supports us in finding the right talent to work with passion and commitment for Vienna’s climate future. Through various collaborations, students network with experts on an equal footing, gain insights into exciting projects and innovations, and establish lasting contacts for their future careers.”

“As one of the largest insurance companies in Central and Eastern Europe, we are always on the lookout for young talent. Our jobs are as diverse as we are. Whether as an actuary, business analyst, software engineer or content creator – together we want to shape a better future.” For us, our fellow human beings and our customers. Many of our existing employees have a degree from the TU Vienna and have successfully started their careers at UNIQA. That is why we see the TU Career Center as an important partner when it comes to addressing and contacting ambitious individuals.”
